

- About 1600 people in Sweden commit suicide every year.
 - About 40 000 are married every year and about the half, 20 000, divorces.
 - 1969 they took away Christianity as a subject in Public Schools.
 - 1969 they took away grades, certificates in how they acted and behaved in Public Schools.
 - 2000 the Government separated from the Swedish Christian Church. Priests could not any longer say when politicians did wrong (my view of that).
 - In the 1990's it became a standard to use swearing, curse words, for politicians and old women too. Mostly everybody talks bad, also some Christian leaders, crazy talk all over Sweden.
 - Homosexuality is almost totally accepted in Sweden. We must show them love but not advertise it.
 - The Rulers and those who work with old people in Sweden are calling the old people "users", "brukare" in Swedish. Very, very bad! Old people get a strong feeling that Government people want them to die fast. That's why Swedish Government people want to have herd immunity, so old people will die under the Corona virus disease, Covid-19, I think. Many old people have died in Corona in Sweden.
 - 2011 in Sweden; 23 women and 1 man were judged for spreading sexual things with children on their computers. Would this have happened 50 years ago, with housewives all over the place and very much Christianity? NO! Sweden has been a very good country in the past with much Christianity, but has now left God pretty much.
 - There is for sure hope for any sinner like me, if we turn to Jesus, God and the Bible. Jesus says: **Come to Me all you who are tired and heavy burdened and I will give you rest. Matthew 11:28**
- Written 2022 by Allan Norgren, Sweden. Homepage: www.jesousouronlyhope.com Basically, I use King James Bible and Swedish 1917 translation.

- Sweden has been a very good country in the past but since we took away Christianity – one step at a time - in many subjects, Sweden is a country on the way down for sure.
- 1969 it was not allowed to have Christianity as its own subject in school any longer. We had Christianity as a subject in school like History or Mathematics since the start of public school in 1842. In the morning it was also a praying time and we sang a Christian song – every morning! That was good for sure.
- In the 1950's 1960's and 1970's Sweden put in law that forbid grown up people to punish children for doing wrong, this happens in different steps. Because of this; Children get the opportunity to be bad to other children and adults cannot help weak children. Because of this, the schools get crazy in many ways, the bad gang become the rulers behind the back of everybody, very sad to say. The Swedish school is not so nice anymore, as it was in the past, when I grew up in the 1960's and 1970's.
- Now in the Corona virus time Sweden is maybe the only country in the world that tries to get Herd immunity, old people will die in big numbers!!!

THE TRUTH ABOUT SWEDEN

SWEDEN - TODAY A COUNTRY WITH LIES

- 1000 years of good Christianity leads Sweden to a country of love and righteousness;

2 Peter 1:7-8

And to godliness brotherly kindness; and to brotherly kindness charity. For if these things be in you, and abound, they make you that you shall neither be barren nor unfruitful in the knowledge of our Lord Jesus Christ.

Living up to the last and best commandment charity love standard for mostly everyone in the whole country. Sweden has in the past been called "the conscience of the world", and that was true before about 1975. Yes, Sweden has been a very, very good country in the past, but now we are on the way down for sure, so sad to say. Most people in Sweden don't like Jesus and His words any more, even though we still have a cross in our flag. The way leaders and many people acted under Corona, Covid-19 shows clearly that Sweden is on its way away from Jesus and the word of the whole Bible.

For 200 years we had "House Examination" (parish catechetical meeting), from about 1700 - 1900, the Priest came to your house to check up everybody, how they lived and how much of the Bible they knew. VERY GOOD! Out of that we still have a good country with some good behavior like; to be nice to foreigners and help people in need, but because the government and ordinary people have gone against Christianity the last 120 years or so – many things have been really bad in Sweden.

The women of my people have you cast out from their pleasant homes; from their children have you taken away My glory forever. Arise you, and depart; for this is not your rest: because it is unclean, it shall destroy you, with a total (great) destruction. Micah 2:9-10 In Israel they forced out housewives about 2600 years ago with catastrophe in the country. The same with Sweden since 1966, and after that people began to feel very bad with many divorces and murders and criminal things increasing very, very much. And the government and media are LYING VERY MUCH about this subject in many, many ways. Sweden is a country full of LIES. So, don't be joked by Swedish government or media people. Sweden is a country on the way down!!! Also, many of the Swedish Christian people are on the way down and they sell many Christian chapels, because many live the same, many Christian women are working and have not time enough to take care of their children.

Sweden has been a very good country in the past; Christianity came here about 1000 years ago and we took it in very much. So, life has been better and better the last 1000 years BUT bad changes have taken place, one thing at a time the last 120 years (about 120), very sad to say, but some things are still good. 1000 years of Christianity has formed the Swedish people deeply and Sweden has a Christian cross in the flag. We also have social welfare, cheap healthcare for everybody and free education. Unfortunately, the Swedish Government is trying to kick out all women to work, even though they have small children to take care of. That is very bad! Many divorces have taken place since they started with this in the 1960's. It is very common that they meet a new partner at work. Many adultery sins start at work. The children feel very, very bad when their father/ mother divorce and many become criminals, many commit suicide, many use alcohol or drugs, they get all kind of psychological disorders like ADHD, autism and so on. I think very much that Sweden is a country of lies and very many things are the opposite of what is good. A person phoned the radio and said "Leaders tell the opposite of what they think in their heart".

- From about the year 1920 the Swedish Social Democratic Party was a strong pusher of the housewife system, it was called "Folkhemmet" "Home of the people" in English. The woman should be home and take care of the family work at home and her husband worked away from the home, if they didn't have their own company or a farm. This was very good of the Social Democratic Party to really work for family life in function. It was very good in the whole Sweden until the 1960's when they began to force out the housewives. Then in the 1980's and 1990's mostly every housewife was working outside their home as they do nowadays. Because of this the divorces increase and children and many people feel very bad. 2019 two of the Social Democratic ministers said clearly "Everyone who can work, must work (no housewives they like) - that's the way we got abundance". All the other political parties think the same and mostly all the Christians think the same also. But Jesus says; **Matthew 6:24 No man can serve two masters: for either he will hate the one, and love the other; or else he will hold to the one, and despise the other. You cannot serve God and mammon.** When women work, the family serves mammon - not God, more or less of course. About 1600 people commit suicide every year, I know 20 myself, mostly everyone happens because of sexual immorality.

Sweden doesn't have hard rules for stopping Corona virus to be spread – they want it to be spread. An old lady phoned the radio and told the Swedish people that the Government want old people to die. For sure it's a lot of evil in Sweden these days 2022-01-09. We Swedish people haven't had any wars for about two hundred years and out of that we can get "We are the best" attitude, so we don't act as fast as other countries. And many sins and evil increases.

- **1527** The first "strong Government meeting" proclaimed "God's word shall be clearly preached" in the Swedish language - not in Latin as before. Everybody should read and know the Christian Bible. Extremely good!

- **1969** The subject "Christianity" was taken away in public schools. Extremely bad!

- **2000** The Government and The Swedish State Church separates, the Government people don't need to confront Christian Priests any more when doing wrong. Crazy!

- From about **1957** children and young people can do whatever they want mostly, they should not have any rules. The Government people fixed rules so this became a truth. That's why Sweden is not a good strong Christian country any longer. **7**

Very many, in every class of society, find their second, third, fourth partner at work.

- Because the Government forced out the women from their care of their children, they wanted to do something good for the children, so they made a law in 1979; it is not lawful to clutch your child in the butt, even though the child tries to burn down the house. The problem now in Sweden the last 40 – 50 years is that children do very bad things in school; many teachers don't like to be teachers any longer because they have lost their authority against the pupils. About 20 years ago, the teachers were together in a big outcall in this subject and told of their bad situation. The worse thing anyway is the children, when two or three children do bad to one child – that child can't get any help from the teachers because they are not allowed to protect the weak child except with words. This is horror for many, many children in Sweden, politicians and leaders are lying very much in this subject, they boost of their love to children.

If the foundations be destroyed, what can the righteous do?
